

Git User's Survey 2016

This survey is anonymous, but all information that the users provide (raw data) will be publicly available on the Git Wiki, at <https://git.wiki.kernel.org/index.php/GitSurvey2016>, to allow for independent analysis.

Note that you may skip questions as you like. All questions are OPTIONAL.

You can also return to this survey after submission, and correct it, or fill more questions later. This feature makes this survey to require to have COOKIES ENABLED, at least for this site, to be able to submit.

Alternatively if you want to submit this survey totally anonymous, without need for Javascript or cookies enabled, you can use the following channel:

<https://tinyurl.com/GitSurvey2016-anon>

<https://survs.com/survey/naeec8kwd8>

Note however that using this channel would mean that you cannot return to the survey after submission to correct it. There is also no protection against multiple submissions from the same computer.

This survey consist of 50 questions.

About you

1. What country do you live in (what is your country of residence)?

2. How old are you (in years)?
